DICK CHENEY ON A RIVER TRIP?

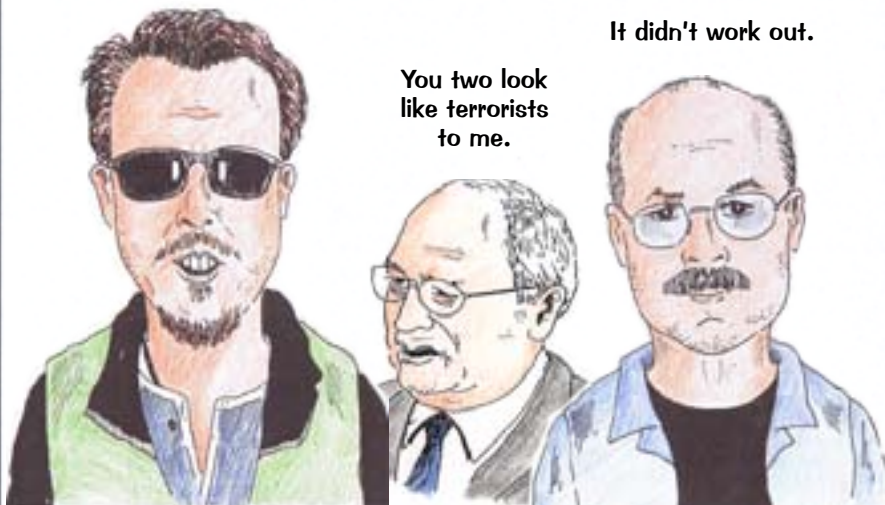

Nope...he didn't want a canoe. He said he came to "walk on the water."

Herb Ringer's AMERICAN WEST

HERB RINGER came West from his home in New Jersey in 1939. He never looked back. With camera in hand, Herb photographed the American West, from the Canadian Border to the Rio Grande and from the Big Sur coast to the High Plains.

We believe Herb's collection of Life in the West is one of the finest. His work has been published in The Zephyr for 20 years. I am pleased finally, to offer Herb's photographs in color. We are also building a new 'album' of his work, elsewhere on this site.
