# Signs & Wonders

**COMING SOON (again)... "24 HOURS of MOAB!"**

The cruder among us might call this mass of recreation-ists a two-wheeled cluster f\*\*k, but it brings enough cash to the Moab economy that local enviros manage to look the other way...this is the 'scene' from a couple years ago. looks like loads of fun!

**CARHENG...THE FUTURE OF ALL INTERNAL COMBUSTION VEHICLES?**

This stunning recreation of Stonehenge, near Alliance, Nebraska, may have more prophetic meaning for the future than we realize.

**THE ONE AND ONLY BEAUTIFUL HIGHWAY SIGN**

**WHO...ME?**

Noted author Jim Cahalan, author of "Edward Abbey: a life" recently sent The Zephyr this photograph, from somewhere we presume, in Pennsylvania. Whether Jim is responsible for the added punctuation is unknown. He did note that practically anyone, of any political or ideological persuasion could be responsible, since he says, I have managed to piss off just about everyone.
