

'BEFORE & AFTER'

ARCHES NATIONAL PARK *The Devils Garden Trail Head* July 1978 & July 2015

In 1976, the Bicentennial Year, Arches experienced record visitation. More than 327,000 tourists came to the park that year. It took until 1986, for that number to climb to 400,000. In 2015, more than a million people crammed into Arches and the numbers are only expected to climb dramatically in the years to come.

In **Notes on Paper**, Falke walks us through the landscape of one man's mind, which contains both his past and an awareness of our common future. From within private memories the narrator reaches out to us with 'we' and 'you', and each spare line invokes the hope that we, like him, are worthy of return to our most longed for places. And if to return is not our fate,

and really it never can be, the narrator bids us survey our own memories, taking time in the present for the winds, and the words, that move the world.

"Jim Stiles holds up a mirror to those of us living in the American West, exposing issues we may not want to face. We are all complicit in the shadow side of growth. His words are born not so much out of anger but a broken heart.

He says he writes elegies for the landscape he loves, that he is "hopelessly clinging to the past."

I would call Stiles a writer from the future.

Brave New West is a book of import because of what it chooses to expose."

Terry
Tempest Williams

Wildland Scapes, LLC (WLS) is an ecological restoration and revegetation service company located in the heart of the Colorado Plateau in Moab, Utah. We provide the following services and products:

- Ecological restoration and revegetation planning, installation, and follow-up services for large and small scale projects
- Exotic weed control
- Erosion management using local materials and native plants
- Regionally native plants for landscaping
- Contract grown plants for specific revegetation projects
- Retail nursery stocking native and ornamental plants that thrive in SE Utah. We grow our own locally sourced native plants. Also your source for vegetable seeds and starts, soil amendments and organic fertilizers.
